1. Check the recommended GE foundation area(s) and subgroup(s) for this course

#### Foundations of the Arts and Humanities
- Literary and Cultural Analysis [X]
- Philosophic and Linguistic Analysis [X]
- Visual and Performance Arts Analysis and Practice

#### Foundations of Society and Culture
- Historical Analysis [X]
- Social Analysis [X]

#### Foundations of Scientific Inquiry
- Physical Science
  - With Laboratory or Demonstration Component must be 5 units (or more)
- Life Science
  - With Laboratory or Demonstration Component must be 5 units (or more)

2. Briefly describe the rationale for assignment to foundation area(s) and subgroup(s) chosen.

Through the examination of literary texts comprised of mythological and philosophical ideas reflecting the ancient cultures of Egypt, Mesopotamia, and the Levant, students will discover the process by which the discipline of medicine emerged from the social and cultural settings of these regions. As a scientific discipline, medicine develops in response to the human struggle to organize, rationalize, and structure the process by which these ancient societies respond to the frailties of the human condition: namely, death and suffering. Students will be exposed to the collection of data related to bodily ailments and their subsequent cataloging in correlation with observable signs to societies living prior to the microscope and germ theory: melothesia (the impact of the observable cosmos upon the local society), political fortune and catastrophe, natural events (such as earthquakes, weather, floods, plague), etc. Additionally, the subsequent impact of the system by which medical data is processed (early biology and omen practice) and later used to dictate political reigns and maneuvering.

3. "List faculty member(s) who will serve as instructor (give academic rank):
   - Michael Wingert (Teaching Fellow)
   - William Schniedwind (Professor, Faculty Mentor)

Do you intend to use graduate student instructors (TAs) in this course? **Yes** **No** **X**

If yes, please indicate the number of TAs: **0**

4. Indicate when you anticipate teaching this course over the next three years:

<table>
<thead>
<tr>
<th>Year</th>
<th>Fall Enrollment</th>
<th>Winter Enrollment</th>
<th>Spring Enrollment</th>
</tr>

<th>GE Principle</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Knowledge</td>
<td>The response of ancient societies to death and pain in light of philosophical, mythological, cultic, and political practices of the ancient Near East. Exposure to geographical, archaeological, and scribal practices will also be incorporated.</td>
</tr>
<tr>
<td>Integrative Learning</td>
<td>Students will be exposed to issues concerning ancient philosophy, mythology, archaeology, politics, scribalism, and cult practices in their observation of the development of medicine as a discipline.</td>
</tr>
<tr>
<td>Ethical Implications</td>
<td>The treatment of ailments and the value system attached to the response of ancient practitioners will form the basis for group discussion regarding diagnostic and remedial action.</td>
</tr>
<tr>
<td>Cultural Diversity</td>
<td>Students will be exposed to differing trends in cultural thought of several communities from the ancient Near East: Mesopotamian, Levantine, Anatolian, and Egyptian.</td>
</tr>
<tr>
<td>Critical Thinking</td>
<td>Students will be required to submit a paper reasoning the process by which a specific area of medical treatment was addressed by societies of the Ancient Near East.</td>
</tr>
<tr>
<td>Rhetorical Effectiveness</td>
<td>Students will be able to engage with the prevalent philosophical underpinnings justifying conclusions in diagnosis and treatment, arguing for alternative treatments rooted in the various worldviews and time periods.</td>
</tr>
<tr>
<td>Problem-solving</td>
<td>Each week, students will arrive to class prepared to discuss and diagnose specific ailments based on their learning of the worldview prevalent in the ancient Near East.</td>
</tr>
<tr>
<td>Library &amp; Information Literacy</td>
<td>Students will compose a 12-15 page research paper engaging one of the select topics presented in the course, utilizing sources found at YRL and through JSTOR.</td>

COURSE DESCRIPTION
Medicinal practice emerged in the ancient Near East long before the Greek sciences. This seminar introduces the ancient cultural factors responding to the frailties of the human condition, namely death and suffering, and their subsequent development into medicinal disciplines.

TEXTS:

*Students will also receive various handouts or learn to appropriately research on JSTOR or other databases for the additional reading list.*

COURSE OBJECTIVES
By the end of this course, students should be able to:
1. Connect the practice of medicine to its origins in the humanities.
2. Develop a familiarity with the prevailing beliefs in religion, magic, the supernatural, and the afterlife of the various peoples of the ancient Near East and the subsequent impact on the development of medicine.
3. Explain the reasoning behind the diagnoses of various ailments in light of ancient Near Eastern thought.
4. Articulate how ancient medicinal practices impacted the political landscape of the ancient Near East.
5. Parse the goals and objectives of ancient medical practitioners with contemporary professions.
6. Conduct original research, assert an argument, and communicate a thesis in written and oral form.

COURSE REQUIREMENTS
Weekly Preparation and Participation
Each week we will be dealing with and addressing ways in which the ancient peoples of the Near East would attempt to conquer death and suffering. Students will come to class prepared to engage in group discussions aimed at exploring the processes by which these ancient
civilizations reasoned their responses to the condition at hand. Proper preparation involves the completion of readings prior to classroom discussion. Students who engage in active reading (note taking, question writing) will be in the best position to contribute to class discussions.

Research Paper Process
The research paper process includes three major components: 1) The Initial Draft Process, 2) The Final Class Presentation, 3) The Final Draft. Assignments turned in at any point after the beginning of class will be considered late.

RESEARCH PAPER
Students will prepare a 12-15 page paper concentrating on one of the following fields and its understanding in the ancient Near East: Ear/Nose/Throat, Dermatology, Cardiology/Pulmonology, Gastroenterology, Urology/Nephrology, Neurology, Obstetrics/Gynecology.

Page Requirement
Minimum page requirements are for complete pages of text, NOT including bibliography. A 4 to 5 page paper, for example, will include a minimum of four COMPLETE pages of text, followed by bibliography.

Plagiarism
“Plagiarism includes, but is not limited to, the use of another’s words or ideas as if they were one’s own; including, but not limited to representing, either with the intent to deceive or by the omission of the true source, part of or an entire work produced by someone other than the student, obtained by purchase or otherwise, as the student’s original work; or, representing the identifiable but altered ideas, data or writing of another person as if those ideas, data or writing were the student’s original work.”—from the UCLA Student Conduct Code (.pdf file), Fall 1998, section 102.01c e.

Getting Help
“Bruin Success with Less Stress” http://www.library.ucla.edu/bruinsuccess—a student-centered, interactive, online tutorial designed to guide you through information literacy topics including intellectual property, file sharing, citing and documenting sources, project management, and academic dishonesty.

COURSE SCHEDULE

Week 1

CONFRONTING THE FRAILTIES OF THE HUMAN CONDITION: DEATH AND SUFFERING IN THE WORLD OF THE ANCIENT NEAR EAST

Reading:

Suggested Further Reading:

Week 2

CAUSES OF DEATH AND SUFFERING

Reading:
Geller, M.J. *Look to the Stars: Babylonian Medicine, Magic, Astrology and Melothesia*. 3-86

Suggested Further Reading:

Week 3

EARLY ANATOMICAL KNOWLEDGE

Reading:

Suggested Further Reading:
Week 4

HEALING PRACTITIONERS IN MESOPOTAMIA AND EGYPT

Reading:

Suggested Further Reading:

DUE: Paper topics due by the start of class Week Four.

Week 5

DIAGNOSTICS AND PROGNOSTICS IN ANCIENT MESOPOTAMIA

Reading:

Suggested Further Reading:

DUE: Paper outlines due by the start of class Week Five.

Week 6

PHARMACOLOGY IN ANCIENT MESOPOTAMIA

Reading:
Week 7

**THERAPEUTICS IN THE ANCIENT NEAR EAST AND NEIGHBORING CULTURES**

**Field Trip:**  *Amber Medicine, Amber Amulets – Ancient Carved Ambers in the J. Paul Getty Museum. Getty Villa, Malibu, CA.*

Reading:

**DUE:**  Research Paper initial draft due by the start of class Week Seven.

Week 8

**PUBLIC HEALTH**

Reading:
Hebrew Bible: Leviticus 13-14

Week 9

**FERTILITY AND ITS IMPORTANCE**

Readings:

Week 10

**FINAL PRESENTATIONS**

Students will present their research to the class and garner feedback prior to submitting their final draft.

Finals Week

**RESEARCH PAPER**

**Due:**  The final draft of the research paper will be submitted during Finals Week.

New Course Proposal

Ancient Near East 98T
The Emergence of Medicine at the Dawn of Civilization

Course Number: Ancient Near East 98T
Title: The Emergence of Medicine at the Dawn of Civilization

Short Title
Units: Fixed: 5
Grading Basis: Letter grade only
Instructional Format: Seminar - 3 hours per week
TIE Code: SEMT - Seminar (Topical) [T]

GE Requirement: Yes
Major or Minor Requirement: No

Requisites: Enforced requisite: satisfaction of Entry-Level Writing requirement. Freshmen/sophomores preferred.

Course Description: Medicinal practice emerged in the ancient Near East long before the Greek sciences. This seminar introduces the ancient cultural factors responding to the frailties of the human condition, namely death and suffering, and their subsequent development into medicinal disciplines.

Justification: Part of the series of seminars offered through the Collegium of University Teaching Fellows

Syllabus: File Wingert_syllabus.pdf was previously uploaded. You may view the file by clicking on the file name.

Supplemental Information: Professor William Schniedewind is the faculty mentor for this course

Grading Structure: 20% readings and participation; 15% paper initial draft; 30% final presentation; 35% paper final draft

Effective Date: Winter 2016

Discontinue Date: Summer 1 2016

Instructor Name: Michael Wingert
Title: Teaching Fellow

Quarters Taught: Fall ✔ Winter ☐ Spring ☐ Summer

Department: Near Eastern Languages & Cultures

Contact Name: MICHELLE CHEN
E-mail: mchen@oid.ucla.edu
